Lisa Malloy (left), president of Zep Retail and Kevin Singletary, plant manager, celebrate the name change of Zep Inc.'s Emerson, Ga. facility from Enforcer to Zep Inc. Since 1983, the facility has been a solid corporate citizen in the Emerson community, and company leaders and employees look forward to continuing that legacy. As the headquarters for the company's Zep Retail unit and the Zep Commercial brand, it houses marketing, sales, finance, accounting, and customer service. Most of the 299,000-square-foot facility is dedicated to manufacturing Zep Commercial and Enforcer brand cleaning and maintenance products, which are sold through retail outlets including the Home Depot, Walmart, Lowe's ACE, True Value and Menards. Currently, 246 people work at the facility.
